Rector's Message

I am pleased to see that the National Management College Library of the National School of Public Policy (NSPP) is continuing with its “**National School of Public Policy Library Data Bulletin**”, a quarterly publication, to provide the faculty and participants of the various training courses at the NSPP a useful guide to the material available in the journals and newspapers received in the library. In addition, this bulletin also provides means to access several data bases of the Higher Education Commission of Pakistan’s ‘Pakistan Education and Research Network’ (PERN). I hope the participants will make maximum use of this large source of data for improving the quality of their research papers.

In addition to this data in journals and newspapers, you can always obtain material from books, which are abundantly available in the library. At the present, we have more than 50,000 books. There are books covering each and every ‘Study Module’, and we keep on adding more and more every year.

The Bulletin will remain a regular feature of the library’s commitment to provide useful, relevant data to the faculty and participants of the courses at the National Management College and indeed the National School of Public Policy.

(Muhammad Ismail Qureshi)
